

RYAN SMITH

SOFTWARE ENGINEERING STUDENT

ALL ABOUT RYAN

Ryan Smith is a junior studying software engineering at Florida Gulf Coast University. His projected graduation date is June 2022. He is an active member of FGCU's software engineering club and spends most of his spare time as a learning assistant, helping COP 1500 Introduction to Computer Science students understand the basics of Python. His goal is to use his software engineering career to create a better world and help marginalized communities gain equality.
